PREFACE

I want to thank all our patients who've posted or sent in nice comments. It warms my heart to hear how we have impacted our patients and truly made a difference in their lives.

I'd like to share a story with you that a colleague shared with me that influenced him at a young age. This experience he had served as a model for how we treat our patients.

When my colleague was young, his parents discovered that he needed glasses. The glasses made a tremendous difference in his life. He could now see the board at school and didn't have to squint or sit in the front row anymore.

The real difference came from the way his optometrist treated him. He told me he could still remember how special his doctor made him feel each and every time he went in to see him for an eye exam. My colleague thought the doctor was a genius... he could remember so much about my colleague, what they shared with each other from the last appointment. He made my colleague feel 10 feet tall, and that he was an important part of his life. My colleague never found out if the doctor had an amazing memory or if he wrote in the chart so he could remember for next time.

It really doesn't matter, because the fact was that he made my colleague feel special. And by doing that, the doctor became bigger than life to him.

This adult who cared about a little boy, this adult who made a teenager feel special, this adult who made a difference in a young man's life. That doctor influenced the way my colleague would feel about his patients, too.

We help people get beautiful smiles. Smiles that help them to be more successful in life, smiles that help people achieve their dreams, smiles that help people feel better about themselves.

My true hope is that we make an even bigger difference in that patient's life, their view of the world, their self-image. Just like that doctor did for my colleague.

When my team and I can truly have a lasting effect on a person's life, our value to our world is incredible.

Thank you for the opportunity to serve you and your family. On behalf of my excellent team members, I'd like to welcome you to our practice.

With gratitude,

Dr. Alfred Penhaskashi

Excellent service, on-time and always cordial!

Going to the dentist is never a pleasant experience specially after breaking a molar. But Dr. Penhaskashi and his staff have the unique talents and attitude to turn things around and make you feel better.

Excellent service, on-time and always cordial. The doctor takes take to explain to you the procedure, benefits, etc. The staff is also very professional and friendly.

**Dr. Penhaskashi, DDS is an excellent, caring
periodontist**

Dr. Penhaskashi, DDS is an excellent, caring periodontist, who heads an office that lives up to his high standards. The professional staff shows the same respect to each other as they show to the patients.

My surgery was carefully explained, and as each step was performed, it was explained again. Since surgery, I have received two calls. One from Dr. P (that's how the staff refers to him) about six hours after surgery, asking, "How was I doing?" And the next day, from his assistant to see if I was having any problems. I was scheduled for a post-op visit in seven days.

The surgical operatory is both an electronic marvel and remarkably comfortable. Great care is taken to keep pain to an absolute minimum.

Electronically, large monitors display photographs, X-rays, and images from the in-house "CT" scanner. A GPS device assists in the accurate placement of implants. The dental chair is comfortable and, if preferred, the patient can wear a Sennheiser headset with your choice of music. The view from the surgical suites' windows, of the north San Fernando Valley, is impressive.

The elevator building is wheelchair accessible including bathrooms. Hand sanitizers are available on each floor before entering the elevator. Easy ADA compliant parking is available in a large lot. Parking is reasonable. There is no additional charge for valet service.

- Cary Brown (2)

Doctor Penhaskashi is amazing. He is knowledgeable, experienced, and thorough. He is a well known doctor in the region. My dentist referred me to consult with him. He has also treated my mother. He is truly great at what he does.

He really spends time with his patients. He asks all the right questions to get to the bottom of the problem and then he offers solutions and options. He tells you exactly what you need to do and what is unnecessary to do. I appreciated his honesty and integrity in his work.

**Best decision I made to get a second opinion from
Dr. P**

Best decision I made to get a second opinion from Dr. Penhaskashi. To start with, the entire staff was so friendly with the feeling that they all loved their jobs. Next I was shown to a room where I met Margaret, who took down a complete history and more. She was amazing and I felt I was with family. Finally, Dr. Penhaskashi. What a thorough exam! He asked me questions I've never been asked before, and it was very clear to me that he would be able to help me. He took his time, didn't miss checking all places in my mouth, and then told me the treatment plan he thought would be best. There is no hesitation that he is the one to correct my problem. I couldn't recommend anyone better!

It was an easy choice to proceed...

Wonderful experience, which says a lot since, like many, I do not enjoy the dentist office and this is next level. From the first phone call with Yasim to my first meeting with Margaret, the treatment coordinator, I was made to feel at ease. Dr Penhaskashi came in and between the doctor and Margaret it was an easy choice to proceed with the gum graft procedure.

The day of the procedure Lorena provided great prep and Dr Penhaskashi made sure I was feeling ok and completed the gum graft procedure in a timely manner with little to no discomfort. Louise who assisted during the procedure was a great and made sure I had everything I needed for after care.

- Jazmin H. (31)

I am very confident that I received the best quality of care.

Earlier today I had multiple procedures at Dr. Penhaskashi's office. I had an implant placed on my lower right jaw, laser treatment for the infection and/or periodontal disease on the upper right and lower right side of my mouth, and laser disinfection of my upper right implant. With all these treatments that are needed to be done at the same time, I was already expecting an uncomfortable experience, but everything went great. I was comfortable all throughout the procedure. Dr. Penhaskashi performed all the treatments using high quality equipment for treating periodontal disease and implant placement. His precision and excellent chairside manner reflected his almost 30 years of expertise. The clinical assistants, Vanessa and Lorena were very caring and attentive to my needs. I am very confident that I received the best quality of care at Dr. Penhaskashi's office. I highly recommend this amazing office to anyone who needs dental implant, periodontal surgery, and laser treatment.

- Geraldine Hagedorn (32)

Provides superior care and will go above and beyond to make you feel comfortable!

Dr. Penhaskashi did a couple of gum grafts for me a few months ago and the results are fantastic! - Lisa Friedman (33)

Dr Penhaskashi is worth it.

First, I have to say that I never do reviews. This is my first and probably only review that I will ever do for anyone. I am a boomer and not used to sharing with the whole world my thoughts. But this one review is worth doing. Dr Penhaskashi is worth it. I will not go into detail only to say his care, his office staff his competence, his health and safety protocols are worth this rave review. Thank you.

- Donna Lane, PSY.D (39)

There were no wait times!

Office was very clean, staff was super friendly, and there were no wait times. The doctor took a lot of time explaining my options to me. Would highly recommend.

- Cory Diebold (40)

Dr. P and team have made me feel very comfortable and confident in my procedures.

I was specifically referred to Dr. P from my dental hygienist for the specific care that I need, and Dr. P and team have made me feel very comfortable and confident in my procedures. One major aspect I admire about this team is the professionalism and caring from both the front desk and dental team. They're so good at what they do, and this is a team you would want to take care of you.

- Dana Demerdjian (41)

If I could give Dr Penhaskashi ten stars I would.

I had a laser treatment today, I was very apprehensive prior to treatment however, I was worried about nothing; it was painless. Post-op I had no pain and no swelling which I was happy. I followed all the Post-op Instructions. The office was set up and prepped to lessen my fears on the COVID-19 making everything comfortable. The staff was very professional and kind, especially Jennifer. If I could give Dr Penhaskashi ten stars I would. He explained what he was going to do in detail, which I appreciated, and all went very well.

I was apprehensive at first, but the staff were very pleasant and friendly made me feel at ease.

Dr. Penhaskashi did excellent work on my two implants done on the same day. When I arrived at the clinic, I was apprehensive at first. But the staff were very pleasant and friendly made me feel at ease. The procedure went smoothly. The following day I received a call from Dr. Penhaskashi checking up on my condition. I didn't have any complaints, no discomfort and no swelling around the implants a day after the procedure. Thank you doctor and staff for the great patient care.

[Dr. P's] professional decorum is outstanding.

Dr. Penhaskashi is the best periodontal surgeon I've experienced. I couldn't even feel the injections he gave me in my gums. He has an amazing technique that distracts the patient while he's injecting. He also has a fabulous personality and a way of obtaining the patients trust in his expertise. He has a special surgical and bone grafting technique that restores bone loss and with this technique he saved 4 of my teeth. I also needed implants for three areas that I had teeth pulled in the past. The implants went very smoothly and practically painless. His professional decorum is outstanding. I recommend him to all my friends and relatives. They all feel the same way about him. Also his entire staff is courteous, professional and kind. They all help you in any way they can. You feel very well taken care of in this office. May God Bless them all always.

- Millie Cruz (57)

I have a lot of anxiety in regard to dental care, Dr. Penhaskashi and his team were welcoming and made me feel comfortable throughout the entire process. Dr. P and his staff are truly some of the kindest, most personable and like able people I have ever met. They made me feel at home, comfortable, taken care of, and supported during a rather complicated/difficult impacted tooth extraction, bone graft and gum graft procedure.

I cannot say enough about how awesome his office is! They truly go above and beyond for their patients! I would/will recommend all of my family members and friends to Dr. P for any/all of their future periodontal needs.

Today was my first appointment with Dr. Penhaskashi and I couldn't be any happier with him and his team! Thanks to Margaret for being so attentive and helpful! She's the best! Dr. Penhaskashi was so helpful, answered all my questions thoroughly, and so descriptive and supportive of everything! Love him and staff already!

If you're having to get implants, [Dr. P's] the doctor to do it.

Dr. Penhaskashi has done two different implants: upper and lower. I felt I had to let anyone know, if you're having to get implants, he's the doctor to do it. You may not believe this but for me I've experienced no pain in those procedures. He's the best

Very thorough and put me at ease...

I have had two separate procedures done by Dr. Penhaskashi, who was recommended to me by my dentist. One was a a gum problem a few years ago and the other was an implant last year. In both cases, I found him and his staff to be excellent. I felt very comfortable with the procedures and the follow-ups. The doctor is very thorough and put me at ease in what could have been a painful and scary scenario. There was no pain at all during the implant procedure and the aftereffects were minimal. I hope I don't need this kind of work done again, but if I do, I will certainly go to Dr. P.

- Amy Schneider (74)

- Dahn Ballard (82)

Great doctor, great staff!

*Great doctor, great staff: everyone is so competent, accommodating, professional, and compassionate. One important note: I had an implant fail once some years ago because I smoked - and the successful implant I recently had done with Dr. Penhaskashi et al. was **after** I quit my decades-long smoking addiction. If you're having a dental implant done, please **please** quit smoking - at the very least for the weeks surrounding the implant procedure, but optimally quitting **entirely**. The doctor & his staff can only do so much to make your implant successful; you **also** have to help it heal. Cigarettes are the biggest anti-healing factor.*

- QuoterGal Hatch (83)

All the people who work there are so attentive and kind

I took my daughter to Dr. Penhaskashi for treatment. His office is so professional and all the people who work there are so attentive and kind. Dr. Penhaskashi explained everything to us before he started his treatment and made sure my daughter was comfortable. I love this office!!

- Arleen Azar (84)

**Thanks for the thorough cleaning and safety measure
to make me feel safe!**

Updating: Just went in for my 6-month cleaning with Mary Gross. I was impressed by the safety protocols in place. You wait in your car until called in, get a temperature check and attest to your COVID screening questions, then are welcomed into the room where you wash your hands. The staff are all decked out with lots of PPE. The assistant that helped Mary, Maria, was great. I could see how their new structure of having the assistants there to help the hygienists worked to keep things safe and secure. There were several new machines in the room to help with keeping the air clean which looked impressive and I'm sure a big investment. Dr. Penhaskashi has done a great job in protecting his staff and patients. And it feels so nice to have clean teeth!! Thanks guys for the thorough cleaning and safety measure to make me feel safe!

Thanks Dr. P!

Dr P... An artist?

I was concerned about pain, and about how well my gums would heal. Dr. Penhaskashi addressed all my concerns and more. I appreciate him more as an artist in his craft. Somehow, he minimized the pain I would usually feel. Honestly, I have had deep cleaning done on my gums that was more painful than the surgery. I have every faith you will get the same great care as I have.

Dr. P has saved my teeth and smile :)

Saying you love the dentist and their staff is usually cause to check for a fever. After having laser periodontal surgery by Dr. P, for the first time in my adult life, I have "pockets" that used to measure up to 10 are now 2's and 3's! It was amazing to be able to go back to work without cut gums and packing. When I left my follow up cleaning with Mary, I was doing the happy dance. I have never, I repeat never, left a dentist office happy! Dr. P has saved my teeth and smile :)

- Carol Marmor (103)

I felt very confident and comfortable...

Dr. P and his staff are professional, kind, caring and efficient. I felt very confident and comfortable with all of the hygiene and safety measures that are in place in the office.

- Nancy Beach (104)

[Dr. P] is a master.

My experiences have been most positive with Dr. Penhaskashi and his staff. First, the office is immaculate and well organized. Second, his staff is efficient, focused, kind and caring. Those two points give one an indication of how the doctor operates. Sanitation is first. The waiting room is spacious with a plethora of magazines, coffee, water and wonderful energy. The doctor is happy, explains procedures reviews your records with you. He is confident, meticulous and has miracle hands. I have had three implants and they are top of the line and they were a success and still are many years later!

The procedure is comfortable considering what it entails. Before the procedure, the staff mails pre-op instructions and calls in prescriptions. Post _op is the same. There is virtually no pain after the surgery and the healing is rapid. The doctor is excellent and he's very encouraging throughout the surgery. This is all accomplished, because its a team effort in the office. No one is ever left unattended.

A special thank you to Dr. Penhaskashi for his expertise, knowledge and skill. He is a master. And a thank you to Jennifer who has been patient and kind with me. No fear or concern needed. You're in good hands and will have a beautiful smile, healthy mouth, body, health and spirit as a result.

- Lenore Fusano (105)

I felt he was honest and really mastered his craft to assure the best positive outcome.

Scheduled all appointments before I left.

His staff is also accommodating and supportive.

Office is clean, bright and comfortable.

- Theresa Robinson (106)

[Dr. P] seems to always have the patient's interest in mind.

Great and caring service by Dr. Penhaskashi and his staff. Very professional, prompt, clean and caring. Dr. Penhaskashi takes a pragmatic and conservative approach to treatment and seems to have the patient's interest in mind at all times. His hygienists are excellent and thorough, as is Dr. Penhaskashi. If you are looking for a warm, but professional environment where you know you are in good hands, this office is it.

- Benjamin Tysch (107)

During the procedure I kept thinking "this is miraculous!"

Dr. Penhaskashi is brilliant and an exceptional master at his profession. I was fearful for years and kept putting off treatment for my gum recession. The sensitivity was getting worse, and I knew it was overdue. Gosh, was I surprised at how very little discomfort there really was during and after the procedure yesterday. Doctor was gentle and efficient, and it went very well! Dr. P and staff made me feel very comfortable the entire time. There was so little discomfort that I regret waiting so long.

During the procedure I kept thinking "this is miraculous"! I am thankful to be able to keep my own teeth in a healthy state once again! A million thanks to Dr P and staff for making this experience so successful. And I would highly recommend everyone get your gums/teeth cared for without delay!!! Sincerely, Annette

- Annette Skinner (108)

**I have been extremely happy with my experience
with his practice.**

I have been with Dr. Penhaskashi since he took over the practice from my former periodontist. I have been extremely happy with my experience with his practice. Both the Doctor and my hygienist (Mary) are quick to notice any problem areas that I may have and I trust them completely. I wouldn't not hesitate to recommend the practice to family or friends.

And then Dr. Penhaskashi comes in to check to make sure everything is okay, and he is such a kind and gentle man. I have been going there for years and have never had a complaint. He did surgery on my gums and it was an excellent job. The office staff is kind and helpful. I would not hesitate to recommend them to anyone. They're the BEST!!

- Rose Solakian (111)

Dr P and his staff are truly gifted health providers.

Dr P and his staff are truly gifted health providers. I cannot stress this in strong enough terms. He is simply the best at what he does and his primary focus is always your well-being.

- Steve Gerbson (114)

I give my entire experience 5 stars!

I recently had an implant placed by Dr. Penhaskashi and I had never, in my life, experienced such great dental work! He made me feel at ease by making sure I was doing well throughout my procedure. He is very well mannered, very easy handed, and most of all informative with his procedures and makes sure you understand what is exactly being performed.

I must also say that this is one of the fewest times where I did not feel the anesthesia being administered due to his gentleness and that to me is artistry!

Lastly, he has one of the best staffs I have ever dealt with; they truly try to make the entire experience stressful and pleasant for the patient and they did exactly that for me!

I give my entire experience 5 stars and Dr. Penhaskashi 5 stars also and will absolutely recommend him to anyone that may need any periodontal work done and/or implants! Thank you for such great work!!

- MDY1 (115)

Dr. Penhaskashi knows what he is doing.

Dr. Penhaskashi and his team are fantastic. I had bad experiences with previous dental offices, but Dr. Penhaskashi knows what he is doing. Their facility has the most up to date technology and he is very knowledgeable. I would highly recommend this office.

- Tim Yu (116)

I trust Dr. P completely!

Today I had periodontal surgery to remove a tooth and prepare for an implant. Dr. Penhaskashi and his staff were great! I was given a complete explanation of the surgery and told step by step what to expect. Today's surgery went exactly as Dr. P told me it would. But because all bases were covered, and I did exactly what I was told to do, I experienced very little discomfort. I have some discomfort now afterwards, but I have taken the pain medication prescribed and it is tolerable. My surgery couldn't have gone better! I trust Dr. P completely and I have recommended him to a friend!

- Annie Glasgow (117)

...the best dentist surgeon I've ever had in 60 years!

This is the best dentist surgeon I've ever had in 60 years, not only in the US, but also compared to those I had in France, Israel, in the British and French Caribbean I never had such extraction where you don't feel nothing for roots so deeply in the mouth, after such a light anesthesia, with other doctors, half of my head was anesthetized for 5 to 6 hours later. There will never be any other surgeon who will take care of my mouth, only Dr. Alfred Penhaskashi. I wish Dr. Alfred Penhaskashi could teach all his fellow surgeon and dentist to work so clean and so painless.

- Andre Smadja (118)

...extremely professional and kind.

As a patient of Dr. Penhaskashi I wanted to discuss my experience going through the implant procedure. First, I had to have a tooth extracted and that experience went quite well. Typically, I heard from people how bad an experience they went through with the pain and discomfort, but I have to say that my experience was the total opposite.

After the extraction, I took my pain meds for only 2 days and found that I was not in any discomfort or pain. Truthfully, it was much less of discomfort and pain than having a filling or even a root canal. I recently had the implant put in and again, so far, it's been totally fine with little to no discomfort.

Dr. Penhaskashi and his staff have been extremely professional and kind. The experience has been the opposite of what I have heard from others. Go into the procedure open minded and have a positive approach to it and you will be fine.

- Jerry Sherman (119)

[Dr. P] is a perfectionist!

Dr P. not only helped my initial gum problem but has kept me maintain excellent oral health. He is a perfectionist.

- Sandy Francis (120)

I really appreciate that after surgery Dr P calls.

Dr Penhaskashi is not only an excellent dentist, but he is a very kind man. He has treated me for laser surgery on my gums and is in the process of placing an implant in me. Both situations were handled very professionally and very kindly.

His office staff is wonderful especially Pauline, his nurse and Mary his hygienists. I would highly recommend Dr P and his staff to anyone.

I am a dental phobic and am now comfortable enough when I have dental work there. I really appreciate that after surgery Dr P calls to check on you and the next day Pauline or his other nurse phones you also.

- Arthur Webb (121)

Everyone warm, friendly, so accommodating.

- Roz Goldstine (125)

I expected him to go to the extreme to fix the problem, but...

Quite honestly, just to have my dentist do an exam, I am shaking and a mess. So, having to go to Dr. Penhaskashi's practice for a problem I am having escalated my nerves! The staff were wonderful, as was he! And what surprised me, was that I expected him to go to the extreme to fix the problem, but he first suggested a preventative and a specific routine to see if it would help the problem. Cannot be more thankful to my dentist for referring me to this practice.

- Mikki Lish (126)

I was impressed with the treatment I received...

I was concerned about getting an implant and didn't know what to expect from the procedure, Dr. Penhaskashi or the staff. Dr. Penhaskashi is the best! I couldn't have asked for a better experience. His experience pays for itself.

Dr. Penhaskashi's office is the best! The staff is friendly, helpful and professional. Dr. P does excellent work and has a great attitude.! I recently had Dr. P correct 2 failed implants done by my regular dentist in an effort to save money. I learned the hard way that you get what you pay for. His experience pays for itself in the long run which shortens the recovery and completion time for the implants.

My teeth are a challenge and Dr. P has proven himself to be up for the challenge! Take my word for it and go to the implant expert, Dr. Alfred Penhaskashi!

[Dr. P] was very careful and caring during the surgery...

Dr. Penhaskashi performed a gum graft on me a few months ago. He was amazing! I had had a graft done ten years before that and experienced quite a bit of pain. This time, under Dr. Penhaskashi's care, the pain was endurable on day one and almost non-existent on day two. I took some pain meds the first day after the anesthesia wore off, but day two I took nothing. Not even an aspirin. But more importantly, the surgery was a complete success. The graft took well and the condition is much improved. He was very careful and caring during the surgery, checking with me frequently to make sure I was comfortable, or as comfortable as possible. Obviously, I hope to never have to have this surgery again, but if I do, it will definitely be with Dr. Penhaskashi.

- Michael Lange (137)

Clean office, friendly staff, validated parking, and not too long of a wait- you want all this at a doctor's office, and you get it here. Plus, any treatment I or my family has had done here was very successfully.

I also like that Dr. Pen does not seem to jump directly into surgery mode or expensive treatment without seeing if problems can resolve themselves or another way.

My mouth, teeth and gums have been in the hands, literally, of Dr. Penhaskshi for many years. It's always been a pleasant experience from the minute I walk through the door. I cannot speak too highly of everyone, especially Mary my hygienist, and Dr. P himself. The treatments I've received have gone without a hitch and after anything major Dr. P. follows up with a call to the house to make sure all is well. I recommend without reservation.

“Very happy.”

Everything was great. I felt very comfortable with Dr. P and he has a terrific set-up and staff. I tend to get anxious about a few things and I'll never feel that way again. All of it was over before I knew it. Can't wait for my next appointment (OK, maybe that was a bit of an exaggeration). Very happy.

- Roland Wrinkle (174)

“...extremely professional and kind.”

As a patient of Dr. Penhaskashi, I wanted to discuss my experience going through the implant procedure. First of all, I had to have a tooth extracted and that experience went quite well. Typically, I heard from people how bad an experience they went through with the pain and discomfort, but I have to say that my experience was the total opposite. After the extraction I took my pain meds for only two days and found that I was not in any discomfort or pain. Truthfully, it was much less of discomfort and pain than having a filling or even a root canal.

I recently had the implant put in and again so far, it's been totally fine with little to no discomfort. Dr. Penhaskashi and his staff have been extremely professional and kind.

- Jerry Sherman (175)

“...kind, understanding, and knowledgeable.”

It's always amazing. Not that I love doctor's appointments in general; however, when I'm here, I know everyone will be kind, understanding, and knowledgeable. They will explain everything. Check and recheck with the patient and treat me well. Seriously, I'm very lucky my dentist referred me to this office. Very lucky.

“...kind, gentle, and goes the extra mile...”

This was my first visit to Dr. Penhaskashi. Unfortunately, not my last, but I do not mind. My first experience, while somewhat painful, was wonderful. His method of giving the Novocain injection was almost magic, I hardly felt it. The actual gum surgery was also far less painful than I expected. I am not dreading my next appointment, like I usually do with the dentist. The best part is that he obviously really cares about his patients.

He is kind, gentle and goes the extra mile to make sure your visit is not something you never want to do again. The whole staff is happy and appear to enjoy working for him, which to me, says a great deal. Thank you.
